Home: Village Safary, Post Office Malakand Payeen , Tehseel Balambat,District Dir Lower, 1830 0 Timergara (Pakistan)

Work: D Block, Bahria Orchard, Lahore, Pakistan, 55150 Lahore (Pakistan)

ABOUT ME

Artificial Intelligence graduate from the University of Haripur with practical experience in machine learning, computer vision, and backend development. I have completed an AI internship at Revnix Technologies and currently work as a .Net intern at Augit Technologies. My projects include a campus surveillance system with facial recognition, an automated HR attendance system, and several AI-powered web applications built with Python, FastAPI, and SQL. I enjoy solving practical problems with technology and am looking to grow in a role where I can learn, contribute, and take on new challenges.

EDUCATION AND TRAINING

Bachelor of Science in Artificial Intelligence

The University of Haripur [15/09/2022 – 30/06/2026]

City: Haripur | **Country:** Pakistan | **Level in EQF:** EQF level 6

- Machine learning and deep learning (supervised and unsupervised learning, neural networks, model training and evaluation)
- Computer vision (image processing with OpenCV, object detection with YOLOv8, face recognition)
- Natural language processing and generative AI (large language models, retrieval-augmented generation, multi-agent systems with LangChain and LangGraph)
- Programming and software development (Python, data structures and algorithms, REST APIs with FastAPI, relational and vector databases)
- Mathematical and statistical foundations for AI (linear algebra, probability and statistics, data analysis with NumPy and Pandas)
- Applied project work: final year project building a multi-camera detection system with automated incident workflows, a FastAPI backend and a React dashboard

WORK EXPERIENCE

Augit Technologies – Lahore, Pakistan

.Net Intern

[01/09/2026 – Current]

- Developing web applications using C#, ASP.NET Core MVC and Razor Views (controllers, models, routing, dynamic page rendering)
- Applying the repository pattern and interface-based architecture to keep code structured and maintainable
- Building REST APIs with JSON-based data handling
- Integrating Entity Framework Core for database operations on SQL Server
- Writing clean, maintainable code following MVC principles
- Working time: 40 hours/week

Revnix Technologies (SMC-Pvt) Ltd – Haripur, Pakistan

Artificial Intelligence Intern

[03/11/2025 – 31/07/2026]

- Built an n8n automation that read Slack punch messages, calculated daily and monthly working hours, and wrote them to Google Sheets, replacing manual attendance tracking for a 60-person company
- Developed a knowledge-scoped RAG customer support agent with LangChain, Pinecone and Tavily Search, keeping answers grounded in verified internal data
- Contributed to FlowSight AI, an internal execution intelligence platform: Slack notification system and Jira task-creation pipeline that extracts action items from meeting transcripts using a Groq LLM
- Developed a 20-endpoint e-commerce REST API with FastAPI and SQLAlchemy, with an LLM shopping assistant with conversation memory and a voice shopping agent (Whisper AI, Cartesia TTS)
- Integrated Meta's WhatsApp Business API with a locally hosted LLM to deliver a WhatsApp AI agent
- Built a restaurant voice ordering pipeline using ElevenLabs speech-to-text and LLM-generated spoken responses
- Working time: 40 hours/week

SKILLS

Python (computer programming) / Artificial Intelligence and Machine learning / computer vision / Python & libraries (Numpy, Matplotlib, Scikit-learn, Pandas, Pytorch) / Agentic Ai / Generative AI / Api Integrations / FastAPI / RESTAPI / C, C++,C# / Workflow Automation / n8n / MongoDB / SQL/SqlServer / SQL / Docker / Git / JavaScript / Microsoft Word / Microsoft Excel / Microsoft Office

PROJECTS

[13/10/2025 – 15/06/2026]

Campus Surveillance System A real-time monitoring system for university campuses. It detects rule violations on camera, identifies the students involved using facial recognition, saves evidence, and automatically generates fine challans, removing the manual enforcement work.

Link: https://github.com/zabihullah0166/Campus-Surveillance-System

[02/02/2026 – 26/06/2026]

Luxstore Voice AI An e-commerce web app built with FastAPI that includes an AI voice agent. Shoppers can speak to the assistant to browse products and get help, which makes the store hands-free and more conversational.

Link: https://github.com/zabihullah0166/luxstore-voice-ai

[04/05/2026 – 11/06/2026]

N8N-Based Attendance Automation An n8n-based HR attendance automation built at Revnix that integrates Slack and Google Sheets to track employee check-ins/check-outs, calculate daily working hours and monthly totals, and eliminate manual attendance tracking for a 60-person team.

[16/02/2026 – 28/02/2026]

Restaurant Agent An AI restaurant assistant that answers menu and service questions using Pinecone RAG, LLaMA 3.1, and LangChain, with voice interactions powered by ElevenLabs and FastAPI.

Link: https://github.com/zabihullah0166/restaurant-agent

[08/06/2026 – 26/06/2026]

Meta Whatsapp Agent A multimodal WhatsApp AI assistant that understands text and voice messages, searches the web for real-time information, and responds with spoken audio using FastAPI, LangGraph/DeepAgents, Gemini 2.5, Tavily, and Cartesia.

[02/03/2026 – 13/03/2026]

Youtube Rag Assistant A YouTube video Q&A tool that retrieves transcripts, indexes them using Cohere embeddings and FAISS, and answers context-based questions using Groq-hosted models through LangChain.

Link: https://github.com/zabihullah0166/youtube-rag-assistant

[17/03/2026 – 02/04/2026]

Contract Lens A multi-agent legal document analyzer that extracts key clauses, assesses risks, and converts complex legal language into plain-English summaries to help non-lawyers understand what they're signing.

Link: https://github.com/zabihullah0166/ContractLens

CERTIFICATIONS

[Coursera, 18/06/2025]
Programming for Everybody Introductory Python course: installing Python, variables, functions, loops, debugging and writing basic programs.

Mode of learning: Online

Link: https://www.coursera.org/account/accomplishments/verify/YSGXFOKT41SV

[Coursera, 18/06/2025]
Python Data Structures Python course on data structures: lists, dictionaries and tuples, file reading and writing, and data processing with Python.

Mode of learning: Online

Link: https://www.coursera.org/account/accomplishments/verify/OUMDRA5WGT1V

[Asian Development Bank Institute (ADBI), 09/09/2026]
Digital Technology for Energy Efficiency Training course by the Asian Development Bank Institute on using AI, machine learning and smart grid technologies to optimize energy use, covering demand-side energy management, smart buildings and policies for decarbonization.

Mode of learning: Online

Link: https://lms.elearning-adbi.org/mod/customcert/verify_certificate.php?code=0lDCr56p4G&qrcode=1&contextid=5722

[Simplilearn, 24/04/2026]
Generative AI Literacy Professional training and assessment by Simplilearn verifying foundational knowledge in generative AI, focusing on core concepts, prompt engineering, and the practical application of Large Language Models (LLMs) to enhance workplace productivity.

Mode of learning: Online

Link: https://drive.google.com/file/d/1Pl_FUgxcW8iDbKN6TgjXyVyKM6AqWsYH/view?usp=sharing

LANGUAGE SKILLS

Mother tongue(s): Pashto

Other language(s):

Urdu
LISTENING C2 **READING** C2 **WRITING** C2
SPOKEN PRODUCTION C2 **SPOKEN INTERACTION** C2

English
LISTENING C1 **READING** C2 **WRITING** C2
SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** C1

Hinkdo
LISTENING C1 **READING** C1 **WRITING** B1
SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

HOBBIES AND INTERESTS

Sports Cricket and volleyball. Team sports that build teamwork, communication, and composure under pressure.

Hiking and Exploration Hiking trails and mountains, and riding a motorcycle to new places. Builds stamina, focus, and safety awareness.

Technical Hands-On Work Electrical wiring, installation, and fault repair. Strengthens practical problem-solving.

Technology and AI Studying coding and exploring new AI tools through small personal projects.

RECOMMENDATIONS

Name: **Yousaf Saeed** | Associate Professor

Associate Professor and Head of the Department of Information Technology at the University of Haripur, specializing in Artificial Intelligence, Intelligent Systems, and Cognitive Vehicular Networks.
Email: yousaf@uoh.edu.pk | **Phone number:** (+92) 3009338681
